## DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

Your directors present the following report on Galena Mining Limited (the "Company" or "Galena") and its controlled entities, including Abra Mining Pty Ltd ("AMPL") (together referred to hereafter as the "Group"), for the period ended 31 December 2021.

### DIRECTORS

The names of directors in office at any time during or since the end of the period are:

Adrian Byass	Non-Executive Chairman
Anthony James	Managing Director / Chief Executive Officer
Alexander Molyneux	Executive Director
Stewart Howe	Non-Executive Director
Johnathan Downes	Non-Executive Director (resigned 29 October 2021)
Neville Gardiner	Non-Executive Director (appointed 20 October 2021)

Unless noted above, all directors have been in office since the start of the financial period to the date of this report.

### COMPANY SECRETARY

Stephen Brockhurst held office as Company Secretary since the start of the financial period until the date of this report.

### PRINCIPAL ACTIVITIES

Since listing on the ASX on 7 September 2017 the Company has continued to focus on exploration and development works at the Abra Base Metals Mine ("Abra" or the "Project"), together with early-stage exploration works at other mineral prospects within the Group's portfolio.

### OPERATING RESULTS

The Group incurred a loss for the period ended 31 December 2021 of \$2,605,625 (31 December 2020: \$1,255,296 loss) and net cash outflows of \$36,718,743 (31 December 2020: \$24,813,569 inflows).

### FINANCIAL POSITION

At 31 December 2021, the Group had a net working capital surplus of \$35,989,222 (30 June 2021: \$93,298,155), including cash and cash equivalents of \$59,476,819 (30 June 2021: \$96,195,562).

### REVIEW OF OPERATIONS

#### Highlights

- **Abra 39% complete at 31 December 2021**
- **Underground mining contractor (ByrneCut) commenced in early October, with 440m of underground development achieved by 31 December 2021**
- **EPC contractor (GR Engineering) commenced on-site processing plant construction in early November 2021**
- **New 1.8km Abra aerodrome construction was completed in December 2021 and operational from early January 2022**
- **Mr Neville Gardiner appointed to the board**
- **Cash balance of A\$59.5 million at 31 December 2021**
- **Exploration at Jillawarra project conducted during the half year**

## DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

### **Abra Base Metals Mine (60% Galena owned)**

Abra comprises a granted Mining Lease, M52/0776 and is surrounded by the Exploration Licence E52/1455, together with several co-located General Purpose and Miscellaneous Leases. The Project is 100% owned by AMPL, which as at 31 December 2021 was 60% owned by Galena, with the remainder owned by Toho (pursuant to an Investment Agreement and Shareholders Agreement with Toho).

Abra is well located with the availability of key infrastructure and close access to water, public roads, existing mining operations and the towns of Meekatharra and Newman. Lead-silver concentrate will be transported by road to the port of Geraldton in the mid-west of Western Australia. Abra has received all the major approvals required for construction, mining and production. First production of its high-value, high-grade lead-silver concentrate is currently scheduled for the first quarter of 2023 calendar-year.

### Project construction / development

During the half year, Abra construction works continued, substantially increasing the construction works as the half year progressed. At 31 December 2021 Abra was 39% complete.

Abra construction works conducted during the half year were comprised of contractor mobilisation, geotechnical drilling, site civil and earthworks, underground development, processing plant construction and ongoing front-end engineering design and procurement.

- **Geotechnical drilling** – In July 2021, five drill-holes were completed for geotechnical assessment of the proposed raise bore locations for future underground ventilation requirements. In September 2021, a diamond drill hole was completed from the portal location down the axis of the first 250 metres of proposed decline development, geotechnical information from that hole is being used to provide detailed information regarding expected ground conditions during initial decline development phase.
- **Procurement of plant long lead-time items** – In August 2021, the Company announced placement of significant orders for A\$9 million of long lead-time items including the ball mill (CITIC HIC 2.5Mw 5.0m x 5.6m) and concentrate filter (Ishigaki fully automated horizontal batch pressure filter). An additional A\$3 million of plant long lead-time procurement commitments were made, including crushers and flotation cells.
- **Underground Mining** – On 5 October 2021 the mining contractor for Abra, Byrnegut Australia Pty Ltd (“Byrnegut”) commenced operations associated with the development of the underground mine. During the half year, underground development progressed ahead of schedule and successfully passed through the upper weathered and transitional rock zones into fresh rock. At 31 December 2021, underground development had reached 440 metres (i.e., approximately 29% complete for the pre-production phase of the project).
- **Processing plant and associated infrastructure works** – On 5 November 2021, the Company announced that GR Engineering Services Ltd. (“GR Engineering”), the engineering, procurement, and construction (“EPC”) contractor for Abra’s processing plant had commenced on-site construction works with the installation of footings and concrete works ongoing. By 31 December 2021, the EPC contract was approximately 38% complete (based on earned value). Final design and drafting is 78% complete and procurement activities, which continued to be advanced ahead of schedule as much as possible, were approximately 54% complete. Actual on-site construction was approximately 7% complete and is expected to accelerate rapidly in the first few months of 2022.
- **Aerodrome and flight services** – Construction was completed of Abra’s new 1.8-kilometre aerodrome on 12 December 2021, which provides significantly improved site access and logistical capacity for the life of the Project, with the ability to land and handle small jets and turboprop aircraft with capacity of more than 70 seats. AMPL entered an air charter services contract with Cobham Aviation Services Australia Pty Ltd (“Cobham”) and commenced regular air services between Perth and Abra utilising Cobham’s modern 76-seat Q400 aircraft and Perth terminal facilities.

## DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

### Safety and environment

During the half year to 31 December 2021, 124,444 employee and contractor work hours were recorded at Abra. During this time Abra had two Restricted Work Injuries. The first injury occurred in October 2021, involving an underground employee receiving an eye injury and the second occurred in November 2021 when a surface construction worker fractured his wrist falling from a safety step. Both employees have recovered and returned to normal work duties. Each incident and follow up actions have been completed, and both incidents were investigated.

No environmental reportable incidences or exceedances were recorded during the half year.

### Commercial initiatives in support of Abra development – project financing debt

On 12 November 2020, Galena finalised US\$110 million in debt facilities arranged by Taurus Funds Management. The facilities include a US\$100 million Project Finance Facility plus a US\$10 million Cost Overrun Facility.

The Project Finance Facility consists of a US\$100 million, 69-month term loan primarily to fund capital expenditures for the development of Abra. Key terms include:

- Fixed interest of 8.0% per annum on drawn amounts, payable quarterly in arrears.
- Arrangement fee of 2.5% (already paid) and commitment fee of 2.0% on undrawn amounts.
- 1.125% net smelter return royalty.
- No mandatory hedging.
- Early repayment allowed without penalty.

The Cost Overrun Facility consists of a US\$10 million loan to finance identified cost overruns on the Project in capital expenditure and working capital. Fixed interest of 10.0% per annum will apply to amounts drawn under the Cost Overrun Facility.

As at 31 December 2021, AMPL had drawn (and received) US\$30 million under the Project Finance Facility, leaving US\$80 million available to be drawn under remaining facilities.

The Taurus Debt Facilities are secured against Abra's assets and over the shares that each of Galena and Toho own in AMPL, and additional drawdowns remain subject to satisfaction of customary conditions precedent.

### Near-Project exploration

During the half year, the interpretation of the downhole electromagnetic survey completed along the diamond drill-hole AB195 at Abra Deposit was concluded with several conductive plates identified north and south of the surveyed drill-hole. These plates have been identified as potential exploration drill targets.

The Company also announced the identification and ranking of the top six priority exploration targets within the Abra joint venture outside of the Abra Base Metals Mine footprint. The targets are identified as Genie, Jasmine, Lamplight, Sultan, Ale, and Bazaar.

Preparations were made to drill an exploration hole at the Jasmine Prospect, approximately 1.5 kilometres northeast of Abra. Drilling will target a coincidental magnetic, gravity and electromagnetic anomaly and the potential extension of the lead and silver mineralisation previously defined at Jasmine in drill-hole AB14A.

Genie and Jasmine Prospects have had minimum drilling completed to test the targets and both have shown similar stratigraphic sequence, alteration, and mineralisation as for Abra. Both targets are within a three-kilometre radius of the Abra mine site.

## GALENA MINING LIMITED AND CONTROLLED ENTITIES

### DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

#### Non-Abra prospects (100% Galena owned)

Galena's non-Abra prospects consist of Woodlands, Manganese Range, Quartzite Well and Copper Chert, which comprise more than 60 kilometres of continuous strike directly to the west of Abra and reside within five granted Exploration Licences, being: E52/1413; E52/3575; E52/3581; E52/3630; and E52/3823.

The Company announced the conclusion of the target review and ranking of Jillawarra Project with the definition of seven high-priority targets: JHP31, 46-40, TP, Copper Chert, QWMR, Coolina and Fencers prospects.

During the half year, the Company completed a reconnaissance diamond drilling program targeting three of its targets within the Woodlands Complex associated with the Jillawarra Project area. No significant mineralisation was found in the holes whilst the stratigraphic and geological understanding of the region continues to provide significant encouragement for ongoing significant discoveries.

All the diamond drillhole samples for the 2021 drilling program have now been submitted to the lab in Perth for multi-element analysis. All the assays are still pending.

Despite no massive and high-grade mineralisation identified within these drillholes, the drilling results are encouraging with base metal mineralisation identified in all the drillholes including the new mineral prospect, Boulder Prospect.

#### Impact of COVID-19

Abra is a fly-in-fly-out ("FIFO") site in the Gascoyne Region of Western Australia, with flights to site originating from Perth Airport. Several measures have been implemented to protect employees and contractors working on the Project, in line with recommended Government guidelines and procedures.

Changes in Government guidelines and / or general business operability because of the ongoing COVID-19 pandemic have the potential to impact Abra and the Company. Such impacts could include (but are not limited to) delays to Project development initiatives and / or the incurring of extra costs.

The boards of both Galena and AMPL continue to monitor the evolving COVID-19 situation and how it might impact the Company's operations and strategy.

#### Corporate

##### Appointment of Mr Neville Gardiner to the Board and retirement of Mr Jonathan Downes

During the Quarter, Mr Neville Gardiner was appointed to the board as a Non-Executive Director. He replaced the retiring Non-Executive Director, Mr Jonathan Downes who was a founding director of the Company.

Mr Gardiner brings a wealth of experience with over 30 years' advising boards and company management on general management, mergers and acquisitions, equity and debt capital markets, transaction structuring, capital allocation and complex commercial arrangements. His career achievements include senior executive leadership roles in Deloitte, Torridon Partners, Bank of America Merrill Lynch, and Macquarie Bank. Mr Gardiner's experience and knowledge base associated with the mining and resources sector in Australia will be extremely beneficial to the ongoing management, direction, and growth of the Company.

## DIRECTOR'S REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

### Outlook

Company activities are centred around full construction of the Abra Base Metals Mine to achieve first production in the first quarter of 2023 calendar year.

Upcoming value adding Abra and corporate milestone workstreams include:

- Completion of all site bulk earthworks except for the Tailings Storage facility ("TSF"). The TSF has been deliberately delayed to complete an engineering review and revise the stage 1 design and work program for that facility. The delay will enable the construction of the facility to be carried out in the cooler months of the year and more importantly enable wall building material to maximise the use of underground waste currently being produced from the underground development.
- Commencement of the construction of the liquid natural gas - solar 10MW power station.
- Finalisation of the detailed engineering for the processing plant and ongoing key procurement to achieve key construction milestones. Increase in steel installation activities and the completion of key offshore items such as crushers and thickeners.
- Continuing underground development targeting the completion of a further 675m during the March Quarter of 2022. During the next quarter it is planned to also complete the first 2, 4.5m raise bore holes from the surface down to underground development in preparation for ongoing underground ventilation requirements. Raise drilling is expected to commence in February 2022.
- Finalisation of the non-processing infrastructure requirements to enable completion of those works in line with site requirements and budget expectations. This work includes mine change house facility, site laboratory requirements and core processing facilities.
- Commence detailed operations preparedness planning for production and ramp-up stage. Exploration drilling at the Jasmine target, approximately 1.5km from Abra.

### CORPORATE

As at the date of this report, the following shares and options were on issue:

- 476,405,353 fully paid ordinary shares on issue;
- 1,250,000 options exercisable at \$0.50 on or before 26 March 2023;
- 1,250,000 options exercisable at \$0.60 on or before 26 March 2023;
- 1,250,000 options exercisable at \$0.50 on or before 17 April 2023;
- 1,250,000 options exercisable at \$0.60 on or before 17 April 2023;
- 9,000,000 performance rights exercisable on or before 9 November 2023;
- 2,000,000 performance rights exercisable on or before 13 August 2024;
- 1,145,000 share appreciation rights exercisable at \$0.17 on or before 21 January 2024; and
- 1,400,000 share appreciation rights exercisable at \$0.24 on or before 1 September 2025.

### CHANGES IN STATE OF AFFAIRS

In the opinion of the directors, there were no other significant changes in the state of affairs of the Company that occurred during the period under review not otherwise disclosed in this report or in the financial report.

### SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

On 12 January 2022, AMPL completed a placement of A\$5 million and issued 6,083,233 new shares to its parent company, Galena and 4,055,489 new shares to Toho's wholly-owned subsidiary, CBHWA.

On 1 February 2022, the Company announced that AMPL had received US\$35 million following completion of the second drawdown of the Taurus Debt Facilities.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the Company up to 31 December 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since the end of period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2021

---

### NOTE 1: CORPORATE INFORMATION

The interim condensed consolidated financial statements of Galena Mining Limited and its controlled entities (collectively, the Group) for the six months ended 31 December 2021 were authorised for issue in accordance with a resolution of the directors on 23 February 2022.

Galena Mining Limited is a limited company, incorporated and domiciled in Australia whose shares are publicly traded on the Australian Stock Exchange (ASX). The nature of the operations and principal activities of the Group are described in the Directors' report.

### NOTE 2: BASIS OF PREPARATION

The interim consolidated financial statements for the six months ended 31 December 2021 are general purpose condensed financial statements prepared in accordance with AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.

The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 30 June 2021 and considered together with any public announcements made by Galena Mining Limited during the half-year ended 31 December 2021.

The accounting policies adopted are consistent with those applied by the Group in the preparation of the annual consolidated financial statements for the year ended 30 June 2021. The group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. It has been determined by the Group that there are no new Accounting Standards or Interpretations that have a material or otherwise impact on its business.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the Group up to 31 December 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

### NOTE 3: GOING CONCERN

The interim consolidated financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The Group incurred a loss for the period ended 31 December 2021 of \$2,605,625 (31 December 2020: \$1,255,296) and net cash outflows of \$36,718,743 (31 December 2020: \$24,813,569 inflows).

At 31 December 2021, the Group had a net working capital surplus of \$35,989,222 (30 June 2021: \$93,298,155), including cash and cash equivalents of \$59,476,819 (30 June 2021: \$96,195,562). At the date of this report, the Directors are satisfied there are reasonable grounds to believe that, having regard to the Group's financial position and its available financing options, the Group will be able to meet its obligations as and when they fall due.

### NOTE 4: SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group is managed primarily on the basis of one geographical segment being Australia, and has the following operating segments:

- The Abra Base Metals Mine segment which is a globally significant lead-silver project currently in development and located in the Gascoyne region of Western Australia.
- The Exploration segment which undertakes exploration and evaluation activities in Western Australia.
- The Other Activities segment which includes all corporate expenses that cannot be directly attributed to the Group's operating segments.

Secured US\$110 million Taurus Debt Facilities March 2027	<u>32,202,493</u>	<u>31,852,545</u>

**Secured US\$100 million term loan facility**

In November 2020, the Company put in place US\$110 million in finalised debt facilities arranged by Taurus Funds Management. The facilities include a US\$100 million Project Finance Facility plus a US\$10 million Cost Overrun Facility. In June 2021, AMPL received the first drawdown under the Project Finance Facility in the amount of US\$30 million and in January 2022, the second drawdown of US\$35 million was received leaving US\$45 million undrawn under remaining facilities at the date of this report.

The Project Finance Facility consists of a US\$100 million, 69-month term loan primarily to fund capital expenditures for the development of Abra. Key terms include:

- Fixed interest of 8.0% per annum on drawn amounts, payable quarterly in arrears.
- Arrangement fee of 2.5% and commitment fee of 2.0% on undrawn amounts.
- 1.125% net smelter return royalty.
- No mandatory hedging.
- Early repayment allowed without penalty.

The Cost Overrun Facility consists of a US\$10 million loan to finance identified cost overruns on the Project in capital expenditure and working capital. Fixed interest of 10.0% per annum will apply to amounts drawn under the Cost Overrun Facility.

The Taurus Debt Facilities are secured against Abra's assets and over the shares that each of Galena and Toho own in AMPL, and additional drawdowns remain subject to satisfaction of customary conditions precedent.

There have been no breaches in the covenants of any interest bearing loans and borrowings in the current or prior period.

In the opinion of directors, there were no further capital or other commitments as at 31 December 2021.

#### NOTE 17: SIGNIFICANT EVENTS AFTER REPORTING PERIOD

On 12 January 2022, AMPL completed a placement of A\$5 million and issued 6,083,233 new shares to its parent company, Galena and 4,055,489 new shares to Toho's wholly-owned subsidiary, CBHWA.

On 1 February 2022, the Company announced that AMPL had received US\$35 million following completion of the second drawdown of the Taurus Debt Facilities.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the Company up to 31 December 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

No other matter or circumstance has arisen since the end of audited period which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial periods.

Name	Country of Incorporation	Non-controlling interest	
		31 December 2021	30 June 2021
Abra Mining Pty Ltd	Australia	40.00%	40.00%

On 12 April 2020, the Company completed a transaction with Toho to invest \$90,000,000 in various tranches for a 40% joint-venture investment in AMPL. During FY2021, AMPL received the third tranche payment of \$20,000,000 (2019: \$10,000,000 received) from Toho and an additional \$18,000,000 equity from Galena and Toho. AMPL issued new shares to Galena and Toho's wholly-owned subsidiary, CBHWA, such that AMPL is currently owned 60% by Galena and 40% by CBHWA. The transactions have been accounted for as an equity transaction with a non-controlling interest in accordance with AASB 10 Consolidations which specifies accounting for non-controlling interests, resulting in the following:

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF GALENA MINING LIMITED

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Galena Mining Limited (the company) and controlled entities (consolidated entity) which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at 31 December 2021, or during the half year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Galena Mining Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

#### Independence

We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

## Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Act 2001 and for such internal controls as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporation Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
